

DDCE Marine

Compensating Device of Variable Electric Fields

Materials:
Stainless Steel
& POM & Saline
protector

Weight:
2,45-6,52 kg

Profitable
solution

Long
lasting
performance

Measurements:
147x257 mm
to
248x290 mm

Passive
Collector
System

Easy to
install

Meets the
Rohs
Standards

prevents direct
lightning strike

R_{máx} 100m
protection

3 years
warranty

20 years
product life
